Videos can be viewed on the Vimeo platform and can be found through the CPT website. Currently, all videos are animated in English and available with French or Spanish subtitles. More languages will follow as time, funding and availability allow. Please contact CPT if you have specific language needs or can assist with translation and subtitling.

Several organizations have used them in collaboration with CPT as part of their employee safeguarding training modules. We would love to work with you to develop training modules around these videos as part of a greater safeguarding program. Downloads of videos are only available by contacting CPT directly.

The CPT website contains original templates, guidelines, posters, and information to assist with designing a child safeguarding system. A list of resources and related organizations are also available for finding help and information on specific topics and regions.
